

Fish Oil

We manage a healthy, sustainable quota in Chile. Our fish oil is made from Jack mackerel, horse mackerel, anchovy and sardine, caught artesinally within, around and beyond the 5-mile limit.

Scientific name
Trachurus Murphyi
Scomber Japonicus
Strangomera Bentincki
Engraulis Ringens

Plant locations
Coquimbo
Coronel

Description

From the sea to processing, the catch is transported directly to the plant, preserving freshness and quality. Carefully processed into high-quality fishmeal under human-consumption standards, this product guarantees a steady supply to our clients year-round and is primarily used in animal feed. No matter the season or location, we maintain consistent premium quality, meeting the best industry standards while promoting sustainability and community development.
