

Jack Mackerel

orizon[®]
Seafood

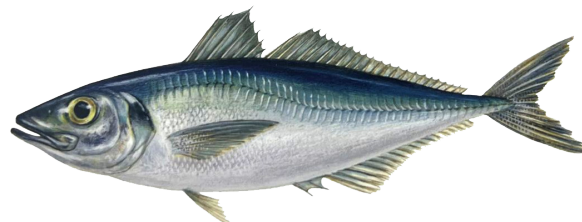

We hold the #1 in the world individual quota for Jack Mackerel, that allows us to secure a steady supply for all our clients.

Scientific name
Trachurus Murphyi

Fishing method
Purse seine

Description

Our fishing is 100% renewable. This epipelagic fish, which swims in schools in the open ocean, is commonly 45 cm (18 in) long, though it can grow up to 70 cm (28 in). Since Chile began its fishery in 1950, the majority of the global catch has been taken by Chilean vessels, predominantly within its EEZ. We maintain sustainable production and are constantly innovating to adhere to higher international environmental standards.

Fishing season **FAO 87**

JAN FEB MAR APR MAY JUN JUL AUG SEP OCT NOV DEC
